VOICE CHANGER PRO (Duration March 2025 - April 2025)
Built a full-stack web app that transforms your voice in real-time using AI! ?? Features: Fun effects: ? Robot, ? Baby, ? Wizard & more Record/upload voice + live preview Flask backend w/ AI inference Credit-based usage dashboard Secure auth + responsive UI ?? Tech: HTML, CSS, JS (Vanilla), Flask, SQLite ? Local build complete, cloud-ready (Heroku/Render) ? Ideas? Collab? Let's connect on real-time AI audio! ? #AI #VoiceApp #Flask #FullStack #WebDev #AudioTech #OpenToCollaborate
Skills used - HTML,CSS,Html5b,Java,Javascript,Node.js,React.js,MySQL,Django,Web Services,Web Development,Web Designing,Frontend Development,Local Area Network,Real Time Analysis,Node,Node Js Developer,Node Js Backend Developer,Node Express,Node Js Framework

Temple Accomodation website (Duration November 2024 - December 2024)
Saurav Raj – Temple Accommodation Website Developer Saurav Raj successfully developed a dedicated temple accommodation website for Shri Yalguresh Samny Temple, located in Bijapura, Karnataka. This project was designed to streamline the booking process for pilgrims and visitors, offering a user-friendly interface to view available rooms, make reservations, and receive booking confirmations online. Saurav implemented features such as real-time availability updates, contact information, and temple details to enhance visitor experience and support temple operations. His work has helped bridge traditional religious tourism with modern digital convenience, benefiting both devotees and temple management.
Skills used - Python,Java,Javascript,Web Development,Web Designing,Web Services,Node.js,Mango DB,MySQL,Django,React.js,Operating Systems,TypeScript,Wordpress,Hosting Services,Web Hosting,Web services,Web Service Integration,Web server,Web server Administrator
